21. Give three observation / suggestions to improve the overall teaching – learning experience in your institution.

568 responses

Excellent

-

Nil

.

Good

Excellent

- 1. Believe in students potential
- 2. Listen and show empathy about personal issues
- 3. Always be Up-To-Date

NA

Nothing

NIL

Nothing

No suggestions

None

None

Everything is good

Extraordinary

Good already

Everything is fine

Nil

Overall, the staffs are friendly, and placements are good in the college. Also, the environment here is good.

Need more detailed lecture

Nil

- 1) Regularly utilising lab
- 2) Motivate self learning
- 3) Periodical projects

Periods of time completing portions is so less. Need some more time to practice

Suggestions:

1. Conceptual learning
2. Simple approach to the concept
3. Providing real life examples

The teachers illustrate the concepts through examples and applications

More interactive
Need more practical explanations

-

Some what practice learning.

1. Kindly give more projects
2. Many competition can be conducted
3. Learning based projects

My college is excellent, good for my career, improve my skill etc...

Teaching can be done by using components according to the topic lively

The best part is a preparation classes before semester helps to observe full potential of each subjects. Assessments model exams are helps to check ourselves which level we are in the academics. Daily test helps cover half concepts before even get into the assessments. These are all main things which helped me a lot throughout my entire academics.

Give more examples to understand the concepts

All good

To discuss some basic concepts well clear

Teaching can be done more in a Practical manner

1. Proper guidance.
2. Good relation.
3. New technology.

More communication between students and teachers

Nothing to improve

Can go bit slow instead of urging

Care on every student, Better communication skills, larger class rooms

Everything is well and Good 👍

The process itself is already in good

Good Teaching

Instead of traditional teaching methods..Using present case studies, Problem oriented, Present Development Tech oriented Teaching will help us gain more knowledge and its boosts curiosity

Request to go beyond Chalk and Board mode of teaching

Ensuring that learned material is revisited at regular intervals instead of all at once much later on, when more of it is likely to be forgotten.

1. Easy to understand for students
2. Way of preparing should be improved
3. Outcome is effective

It could be much better if we have industrial visits and educational tours

Please give more application and examples related to the topics

1. Need 60% of practical learning method and 40% of theory learning
2. Can implement student exchange program

Active communication in English with professional handling of student community

Have to concentrate on practical side

Can have more problem solving method

Internship opportunities

Asking students to ask more questions and conducting debate in hard topics can help

Till the date it is good, expect more for the management.

No portion rush up

Giving brief intro to all units

I

Can increase no of academic books in library

More informative seminars, lecture by an expert required

More emphasis on skill based learning and promoting entrepreneur skill needed

1. allow more extracurricular activities
2. Give and help with projects related to our core studies
- 3 practical learning should be encouraged

It would be better if teachers focus more on delivering quality lectures and rather than following strict methods, forcibly making students to learn. Teachers should develop more empathy on students and should not find abusive and demotivating methods to make students study.

They can improve by using introducing recorded lectures/classrooms so that we can easily revisit the topic during a revision. They can also introduce more experimental/research based learning and inculcate this in syllabus. The overall learning is good and helps to a certain degree.

Try to conduct debate during the class time regarding to the subject

1. Already teaching level is very well so follow this every times.

Its already good

Improving practical knowledge other than usual class
Encourage students to do intership in 2 year itself
Encourage interdisciplinary knowledge

All are good

1.Usage of technology like multimedia for teaching.
2. Teachers can be little more interactive with *All* students.
3. Teaching practically using technology for concept given in syllabus

I thought faculty members taught very well so I have no suggestion about this.

Very good teaching

.

Good extra learning apart from academics and more internships qnd industrial visits are conducted

Practical examples should be discussed
Should explain where we using its application

1. Can teach subjects in more practical way
2. Can give break after 5th hour. Because it gives drowsy feel when continuously listening lectures

Everything is good

Improve self learning.....give more attention on growth of student on their field of interest and encouragement on the same

The assignments can be encourage to do in laptop or computers. Teachers can use gadgets in classroom for better understanding of students.

Give equal importance to all student

Need more extra acitivities classes

Need for sports activities classes

Need more club activities classes

Digital teaching methods can be adopted

Analytical skills can be inculcated

ΔUnderstand students in better way

Δunderstand their mental health

say nothing

To Inculcate more in extra curricular activities

Try to reach every student and ask for their doubts.

*Maintain interactive communication with all students

*Allow to do extra curricular activities

* Allow to conduct some Sports events ..

Nothing to say !

The learning should be practical.

Should encourage more in gaining out of the syllabus knowledge

1. To give more information about the syllabus.
- 2 . Can also teach , beyond the syllabus.
3. Should contact with all the students and to ask about the subjects .

Skill based learning

Every expectations is satisfied...

Increase the days of internship.

Introduce project oriented subject.

Introduce more COE labs.

- increase the days of internship.
- introduce project oriented subjects.
- Introduce more COE lab programs.

Monitoring the execution

Nothing at present

- 1.increase the internship days
- 2.increase the number of project works
- 3.increase the time of working in labs

- 1.Give us more priorities to attend international competition
- 2.project based learning
- 3.provide more industrial exploration in abroad

Expecting uniform arrangements of new competitions.
Expecting for a new IV visits for useful learning
